## SAFETY

### Basic Rigging Training Manual (45010-INV)

Cost effective training that works! A fully illustrated manual with nine chapters, review questions and knowledge test. Manual includes training on fiber rope, wire rope, slings and hitches, rigging hardware, hoists and other moving equipment, load weight, center of gravity and weight distribution, load attachment and movement, hardware selection and sizing and rigging planning.

Item BR1 Each Retail \$139.00 Member \$109.00

### Basic Rigging Administrative Guide (45000-INV)

Accompanies the training manual. Includes the entire course content with a preface of general training guidelines for the subject matter plus the answers for the review questions.

Item BR2 Each Retail \$159.00 Member \$149.00

### Basic Rigging Class Pack (45005-INV)

5 Training Manuals and 1 Administrative Guide (A value of \$734).

Item BR3 Each Retail n/a Member \$679.00

### Cargo Securement & Protection Video (44050-INV)

This 30-minute video addresses new and revised load securement regulations, published by the US DOT. In January 2004, the rules changed the way cargo was secured and provided exact securement regulations for commodity specific loads. Additional modifications took effect in July 2006.

- Elimination of the requirement to route tie downs inboard of the rub rails on flatbed trailers
- Clarification of the requirements for securing cargo in a sided vehicle
- Addition of requirements for various types of round metal objects and coils of wire, thus creating more stringent standards
- Clarifies the calculations to determine aggregate working load limit for tiedowns.
- Amendments to the rules for securing logs, paper rolls and intermodal containers

Item S16A (VHS) Retail \$165.00 Member \$120.00

Item S16B (DVD) Retail \$195.00 Member \$150.00

Available Jan 2008  
Includes latest  
Federal Revisions

### Crane Hand Signal Decals – English/Spanish (43020-INV)

The decals are now available in both English and Spanish (on one decal), with an illustration for each signal. The 10" x 14 1/2" poster decals are screen printed in black ink on durable white adhesive-backed vinyl, suitable for application to exterior painted metal equipment.

Item 1-29 copies: Retail \$4.50 Member \$3.50

S13 30+ copies: Retail \$4.00 Member \$3.00

### Crane Hand Signal Pocket Guides (43020-INV)

SC&RA now offers the popular Crane Hand Signals reference in a handy Pocket Guide format. The reference is available in both English and Spanish (in one guide), with illustrations for each signal. The Pocket Guides are printed in a tri-fold design on heavy coated paper, and fit easily into a pocket or wallet (Pack of 10).

Item S14 1 Pack Retail \$25.00 Member \$15.00

### Death Overhead Decal (45015-INV)

Red and black weather-proof decal. 7" x 10"

Item 1-9 decals: Retail \$4.00 Member \$3.00

S8 10+ decals: Retail \$3.00 Member \$2.00

### Exxon Crane Guide:

#### Lifting Safety Management System (45020-INV)

A cooperative effort between SC&RA and Exxon results in a comprehensive guide of 120 pages that includes forms and checklists for your operations.

Item CR3 Each Retail \$75.00  
Member \$60.00

### Model Crane and Rigging Safety Program Guidelines (45025-INV)

Follow the guidelines in this 56-page book and you'll be on your way to a safer workforce. Step-by-step instructions are combined with excerpts from actual, proven safety programs by SC&RA member companies.

Item 1-5 copies: Retail \$125.00 Member \$75.00

MSP1 6-10 copies: Retail \$115.00 Member \$65.00

11+ copies: Retail \$110.00 Member \$60.00

### Personnel Lifting Device Guidelines (44040-INV)

This 13-page booklet provides helpful explanations about elevated work platforms and how to use them to their fullest potential. Includes: applicable industry standards, safety and training considerations, review of versatility and applications.

Item 1-5 copies: Retail \$20.00 Member \$10.00

PLD1 6-10 copies: Retail \$17.00 Member \$ 7.00

11+ copies: Retail \$15.00 Member \$ 5.00

### Recommended Practices for Telescopic Hydraulic Gantry Systems Set (44045-INV)

Produced in response to changes in the industry over the last 10 years, this set replaces SC&RA's *Recommended Practices for Hydraulic Jacking Systems*. No other manual or video on the market covers this subject. The 24-page manual covers five main areas: Scope, Definitions, and References; Construction and Characteristics; Inspection, Load Testing, and Maintenance; Pre-Lift Planning and Engineering; and Operations. Also included are a pre-lift planning checklist and a pre-lift checklist. The video reviews definitions and features demonstrations of equipment set-up and the proper use and maintenance of the systems. Low pricing on this set is a result of funding from the SC&R Foundation.

Item No. HGD (DVD+Book) Retail \$175.00 Member \$150.00

Item No. HGV (VHS+Book) Retail \$150.00 Member \$125.00

Item No. HG (Add'l Books) Retail \$ 85.00 Member \$ 75.00

**Safety First! A Team Effort**  
(Series 1, Series 2 & Series 3) (45031-INV)

The first three programs in a series of four, each video has three new safety talk programs designed for use in separate training sessions. Each video has three topics, 5-7 minutes each. Created by SC&RA in cooperation with the Construction Safety Council.

**Series 1 features the following programs:**

- *Ladder Safety* includes tips on selecting and inspecting ladders and basic safety precautions when using ladders in various situations.
- *Personal Protective Equipment* provides OSHA requirements and industry best practices for a wide range of personal protective equipment designed "to send each worker home at night healthy and injury free."
- *Personal Fall Arrest Systems* demonstrates when and how to properly use the three components of a viable system and examines different types of systems that have proven effective at protecting employees.

Series 1 Item SF2 (VHS) Retail \$129.00 Member \$ 99.00  
Item SF1 (DVD) Retail \$159.00 Member \$129.00

**Series 2 features the following programs:**

- *Working Safely with Liquid Propane Gas* examines how to prevent fires and explosions by wearing proper personal protective equipment, inspecting tanks, and proper transportation of cylinders.
- *Housekeeping* shows why employees should keep a clean work area, in addition to, safe handling techniques for hazardous materials, how to make housekeeping part of a regular routine and how to respond accordingly to accidental spills.
- *Back Injury Prevention* demonstrates five steps to safe lifting. Also included are tips for warming up, moving heavy or awkward objects, using special equipment to assist with a lift, and eliminating potential obstacles.
- **BONUS TOPIC** – *Fire Watch Safety Practices* explains how employees can reduce property damage and injury by taking necessary steps to identify hazardous and combustible materials, ventilating work areas and protection in case of fire.

Series 2 Item SF4 (VHS) Retail \$129.00 Member \$ 99.00  
Item SF3 (DVD) Retail \$159.00 Member \$129.00

**Series 3 features the following programs:**

- *Aerial Work Platforms* examines ways to use the scissor lift and the articulating boom lift with maximum productivity through sufficient operator training, thorough inspection of the equipment and work environment, and careful operation. This session discusses manufacturers' guidelines regarding load distribution, travel speed, acceptable slopes in the travel path.
- *Suspended Work Platforms* explains how to use these devices safely where conventional means of accessing work – such as scaffolds, ladder or aerial lifts – is either not possible or would be more hazardous. In addition to reviewing when not to use the platforms, the session examines how to inspect the crane, basket, rigging system, and area of the lifting operation.
- *Hazard Communication* discusses steps the Occupational Safety and Health Administration (OSHA) requires of employers concerning the development and maintenance of a written program for employees who might be exposed to hazardous chemicals at work. The session details OSHA requirements for its four classes of hazardous chemicals: flammable/combustible, corrosive, reactive and toxic.

Series 3 Item SF6 (VHS) Retail \$129.00 Member \$ 99.00  
Item SF5 (DVD) Retail \$159.00 Member \$129.00

**Safety Talks Manual** (45030-INV)

Thirty-five topics for safety meetings contained in a sturdy three-ring binder. Includes employee sign-up sheets.

Item 1 copy: Retail \$75.00  
CR1 Member \$55.00  
2-5 copies: Retail \$70.00  
Member \$50.00  
6-10 copies: Retail \$65.00  
Member \$45.00  
11+ copies: Retail \$60.00  
Member \$40.00

**Steel Cargo Securement and Protection Guidelines** (45035-INV)

Cargo specific requirements set forth in understandable text and illustrations! This booklet contains the latest regulations and procedures needed to haul steel products safely and without damage. Easily understandable illustrations compare correct and incorrect techniques. Make this a safety standard in your company and an equipment necessity in each of your vehicles!

Item 1-25 copies Retail \$16.00 Member \$14.00  
SCP1 26-100 copies Retail \$14.75 Member \$12.75  
101+ Retail \$13.50 Member \$11.50

**TECHNICAL & REFERENCE**

**Directory of Members and Equipment** (44006-INV)

Annual directory of members and equipment is the most complete and up-to-date reference source in the industry:

- U.S., Canadian and world-wide listings of qualified member contractors, their capabilities and equipment
- Fast referencing by alphabetical and geographical indexes
- Allied products and service listings include everything from spare parts to insurance sources

Much more than a listing of names and addresses. You will find information on each member firm's complete range of services and capabilities, as well as a detailed listing of available equipment, including tonnage and dimensions.

Item 1-5 copies Retail \$115.00 Member \$50.00  
T7 6-10 copies Retail \$115.00 Member \$45.00  
(Print) 11+ copies Retail \$115.00 Member \$40.00

Item T7a (CD) Each Retail \$195.00 Member \$145.00  
Note: The Directory on CD does not include e-mails.

**Forklift Rigging Attachments Video** (44055-INV)

This 20-minute program covers many of the most common fork lift attachments from booms, winches, and side shift carriages to personnel baskets and fork extensions.

- Highlights the three classes of fork trucks predominately used for rigging: Internal Combustion Solid Tire Trucks, Internal Combustion Pneumatic Tire Trucks and Rough Terrain, Pneumatic Tire Trucks and Industrial Crane Trucks.
- Details safety tips and includes a job site checklist.
- Accompanied by a workbook providing detailed information on how to accurately calculate load capacity, along with a knowledge quiz.

Item F8A (VHS) Retail \$125.00 Member \$ 95.00  
Item F8B (DVD) Retail \$155.00 Member \$125.00  
Item F8W Workbook Retail \$ 39.95 Member \$ 29.95

### Glossary of Common Crane and Rigging Terms (44015-INV)

This handy pocket-sized tool contains concise definitions of 776 common terms used in the performance of duties related to crane and rigging work. The listings also refer users to related terms and other words with the same meaning. Available in English (Item CR5) or Spanish (Item CR5-S).

1-15 copies:	Retail \$14.95	Member \$12.95
16-49 copies:	Retail \$13.95	Member \$11.95
50+ copies:	Retail \$13.25	Member \$11.25

### Guidelines for Crane Operations (44020-INV)

This product describes responsibilities for management, supervision and crane operators during lifts. Accordion folded guides are a convenient wallet size for handy reference (Pack of 10).

Item OP1 1 pack: Retail \$30.00 Member \$20.00

### Lifting Industry: Weights, Measures & Signals (44025-INV)

Compiled by an experienced equipment operator, this 96-page pocket-sized reference features easy-to-use tables on the weights of the most commonly used materials and items lifted in industry. You'll also appreciate the clearly illustrated hand signals and, for the first time, the basic radio signals that seem destined to become the standard form of communication in the industry.

Item	1 copy:	Retail \$5.00	Member \$3.50
WMS1	2-5 copies:	Retail \$4.50	Member \$3.00
	6-10 copies:	Retail \$4.00	Member \$2.50
	11-50 copies:	Retail \$3.50	Member \$2.00
	51+:	Retail \$2.75	Member \$1.25

### Moving the World – No Other Industry Carries as Much Weight (VHS or DVD) (21000-ADM)

The SC&R Foundation funded this video project as an important initiative to assist members in educating shippers, regulators, legislators and prospective employees on the challenges and opportunities within our great industry. Over many months, SC&RA worked with a host of members from around the world to produce the footage of interesting and unusual jobs by SC&RA member companies (17½ minute video/DVD).

Item SCRFV (VHS)	Each \$29.00
Item SCRFD (DVD)	Each \$29.00

### Oversize Overweight Permit Manual

(Updated three times a year) 44036-INV (P) 44030-INV (C)

Spells out state permit issuing regulations for oversize and overweight loads in the fifty states and Canada. Includes applicable railroad rules for every state. Loose-leaf notebook or CD. Price includes three updates for the first year. One Year Subscription. Renewals will be invoiced at the end of your subscription (Renewal Prices: Print – Retail \$170, Member \$120; CD – Retail \$210, Member \$160)

Item T1 (Print)	Retail \$210.00	Member \$160.00
Item T1b (CD)	Retail \$400.00	Member \$300.00

### Pilot Car Escort – Best Practices Guidelines

Build a foundation of knowledge for the professional pilot car escort based on the "Best Practices" of the industry. Set standards of operation that are effective, efficient and safe. Clarify oversize/overweight load movement team member roles and responsibilities. Low pricing is a result of development costs being funded by the Federal Highway Administration.

Item PCE Retail \$9.95 Member \$7.95

### Risk Management Guidelines for Cranes (43055-INV)

SC&RA's Risk Management Guidelines for Crane-Rigging and Heavy Equipment Operations is a comprehensive, 31-page resource that addresses the many risks associated with operating cranes and other heavy equipment, and prescribes a number of proven methods to avoid disaster on the job site.

Item RMG1 Each Retail \$49.00 Member \$29.00

### Truck Driver Risk Assessment Guide and Effective Countermeasures (44060-INV)

Developed by a group of leading safety professionals from the trucking industry in partnership with the Federal Motor Carrier Safety Administration and approved by the SC&RA Transportation Safety Committee, this Guide provides a wealth of essential information. Contents include: The Driver Selection Process — Ensuring a Solid Business Future Behind the Wheel, Evaluating In-Service Drivers and Personal Issues that influence driver performance. A must-have publication to help identify and manage those drivers most at risk of accident involvement.

Item TDRA Each Retail \$30.00 Member \$18.00

## BUSINESS FORMS

### SC&RA Crane Safety Inspection Record Form (42015-INV)

This form contains daily, weekly, quarterly and periodic inspection criteria to help keep cranes in tip-top condition (Pad of 50).

Item	1-9 pads:	Retail \$10.00	Member \$6.00
S1	10+ pads:	Retail \$ 8.00	Member \$5.50

## SC&RA MEMBERS ONLY

### SC&RA Emblem (43015-INV)

These heavy duty decals are suitable for mounting on your equipment . . . showing the industry you are an SC&RA Company.

G3 3" x 3" Decal	
Item G3	1-9 decals: Member \$2.00
	25 pack: Member \$18.75

G4 9" x 11" Decal	
Item G4	1-9 decals: Member \$3.00
	15 pack: Member \$22.50

### SC&RA Ladies Group (40005-LAD)

The Ladies Group mission is to support the Association & Foundation while providing opportunities for fellowship and networking. They accomplish this through fundraising events and social gatherings at SC&RA conferences throughout the year.

Item M2 Annually Member \$50.00

### SC&RA Membership Card

Order Additional or Replacement SC&RA Membership Cards.

Item MC Member \$10.00

### Walnut Certificate Plaque (43050-INV)

Show your affiliation with SC&RA by displaying your membership and recognition certificates on a handsome solid walnut plaque. Quick and easy to use. Just slide your horizontal or vertical 8½" x 11" certificates behind the crystal clear molded acrylic plastic panel and hang. (14" x 17")

Item G5 Each Member \$32.50
